This game is unbeatable on the first level lol. 15 defense is not the match-3 or 3 in a row game. This is a sliding piece puzzle/15-puzzle game. It consists of a square tray containing 15 square tiles and one open space in a 4x4 arrangement. Any tile lying next to the space can slide into it, and so the tiles can be mixed up. The object of the puzzle is to place the tiles in order by making sliding moves that use the empty space. You only slide one tile at a moment. In 15 defense, the player will need to move the jellyfish and kill sharks and octopuses. This will not be an easy game. The game guide, wonderful music and effects will help you delve right into the game.. great mixture of tower defence game with a 3 in a row puzzle - you have a cave that you need to protect from attacking sharks, theres a big octopus living in a cave, and he protects with the help of small octopuses you are moving in 4 rows by 4 columns puzzle field to stop the enemies and to eliminate them. first the game seems to be rather easy, but later you need to upgrade the skills and talents and to keep with time.. 15 defence is sliding action specific puzzle. Your task is to fend off the attacks of different types by sliding jellyfishes, mollusks and snails in one line with enemy. Graphics is quite stylish, MIDI music and sound are simple but good. 15 defence is a good game for the very low price and with trading cards.. The game by its own principle is very similar to The Gem Puzzle. Move the figures of a jellyfish and a starfish. But the game is more difficult, since we are always attacked by a squid, a shark or a piranha. You need to be constantly on the alert and move the figures.. Steam, you're drunk. Hard game, bad graphics. Could be stimulating for some people though.. I do not understand why this game has such good reviews. I understand that it is meant to be a new innovative addition to a classic but it is very poorly implemented. Not only is the gameplay very dull, but the tutorial explaining the game was not very thorough and took some time to figure out how to actually play. The art style and etc for this game also makes it seem like it was from the 90's which is fairly unwanted (for me atleast) in a game released in 2017.. A gaming masterpiece; truly the epitome of good game development. I would recommend this game to anyone that enjoys having fun, because it will appeal to all races, ages, sexualities, weights, heights, and penis sizes. The perfect game for the family, a great bonding exercise; me and my 30 year old boy have only gone closer by playing this game. It has changed my life for the better.
