About This Game

The world was plunged into chaos following an accident at a bio-weapon research facility. 100% of the earth's population has been infected. There is an antidote that blocks infection from the airborne strain of the virus, but the effect is temporary. This antidote has become the de facto currency of the new world. You have been informed that an enormous quantity of the antidote is being stored on the last floor of a bio-weapon lab.

Game Features:

- An original mechanic for dealing damage to enemies

- Four-bit graphics using the Game Boy's color pallet

Title: Bloody Walls
Genre: Action, Free to Play, Indie
Developer:
L. Stotch
Publisher:
L. Stotch
Release Date: 28 Sep, 2016

b4d347fde0

Minimum:

OS: Windows 7

Processor: 800 MHz

Memory: 512 MB RAM

Graphics: Hardware support WebGL - OpenGL 2.1 (GPU Memory - 256MB)

Storage: 127 MB available space

English,German,Russian

Makes fifa look bad. Single Player is pretty good.

The multiplayer on the other hand seems to crash trying to load into levels with friends, a large text box of gibberish appears each time you load into a level, you have to manually select each level if you want to co-op through the game with some friends, it should work like a playlist where you play through the sectors and when those are complete then you could choose the next sector.

Also the customization menu seems to have trouble displaying some of the effects like the wraith effect I couldn't tell what it was supposed to be. Also the white text of the main menu is hard to see over the white polyball in the corner though you can just change the color of the ball in the customization menu.. Horrible, controls don't work, vr is the worst for this game, voice acting made my ears bleed and the game looks like garbage graphically. Unless you like trash avoid this game at all costs. I have played thousands of games on steam and this is near the bottom of the list...... idk y many hate it but... in my opinion it's a funny game XD. I've been a massive Football Manager fan for as long as I can remember, and for years i've wanted a game that does something similiar for American Football.

The interface may look a little outdated, but it's only superficial, the depth in this game is fantastic and if you love the numbers side of American Football you won't find a better game out there.

Can't recommend this game highly enough, FOF7 is the American Football FM sim i've been waiting for.. So far so good! This appears to have all of the softcore roguelike features ie; Permadeath, Upgradable Town (Improved weapons\/armor, enhanced starting levels\/gold for new toons, enhanced resource gain etc), and merchants to purchase new gear. Resources are gained each time a stage is cleared, allowing you to make upgrades to your town.

 There are currently two classes. One a Dwarf warrior, and the second a tribal female Shamman. They play as you'd expect, standard melee and caster respectively. You gain levels quickly, with which you enhance Strength, Agility or Intelligence, and increase the power of inherent skills. The basic stats also have varying effects on the two different characters, alluding to lots of variation as new ones are released.

 The combat controls are intuitive and familiar. The AI is predictiable, melee attackers bum rush you, and casters and ranged hang back and fire away. You start with a good variety of skills, and the combat is fun from the start, and fast.

 When you start, and after each stage is completed, you go to a World Map, where your next encounter will occur. You usually have a choice of varying encounters ie; standard battle, defense (which scales to your level) and\/or a diplomacy option which is unique and offers rewards based upon your dialogue choices.

 Obviously as this is the first day of early access, all these things will change and develop, but the first impression is a great one. I did just have my first crash, immediately prior to writing this. The screen locked up while fighting, and then crashed. But this is to be expected so early on, and I'll be heading back in shortly to level my next sacificial lamb.

 P.S. The crash merely reverted my save data to the previous town visit. So roughly 30 seconds of playtime was lost.

I got this game and it was an instant hit for me. The combat system is amazing and at first i thought you couldnt level up your skills past the fourth point but you can and its a genius idea. The monsters big, annoying and it can be hard sometimes but its all worth it. All the warlocks themselves are really unique. I suggest this game and give it a 9.5\/10. 6\/10

Fun, but without any kind of lasting appeal. One of those VR games that you pick up for an hour or so. Nice artwork.. Looking for a reason to kill yourself? Then this is the game for you!. First off, this is not like real hacking. You can learn some of the concepts of hacking from this game, but don't come out feeling like you can take down any website you want just because you played this game (seriously, at one point you scan a local ip address and you get a location in NY and you are in Alaska. WTF).

That said, Hacker Evolution is a fun game if you like typing and resolving horrible domains names about a billion times (and it's extremely picky about spelling, despite spelling special wrong). Do not play this on a laptop you are unfamiliar with (for you will cry).

In the end, Hacker Evolution is a brutally hard game just for the fun of it (try keeping your trace down, such a pain in the\u2665\u2665\u2665\u2665\u2665, the command console will be filled with the same helper text you've seen before (causing lots of scrolling) and it's one of those games where there is one right way and that's pretty much the only way.

Verdict: It really depends on how much you like text based adventure games.. Got 2 achievements for pressing Start 10/10 IGN

(100% in 39 minutes). Really fun to play, puzzles are fun and an interesting story keeps the game moving along at an exciting pace!. Odysseus Kosmos and his Robot Quest: Episode 1 - an interesting indie game from Russian developers, cool retro graphics, addictive gameplay, low price - all this awaits you in 1 episode of the space quest!

DLC: Bloody Walls: Hardcore (gameplay):
https://www.youtube.com/watch?v=ZR_M6KWCsLA. **Update 0.5**:
