Sweeeeeeeeet game. Recommended, If you love anything Mech, Sci-Fi, Battling Then you sure have to at least give it a shot.. so much crash I have :( mission take so long to complete and in the last...CRASH ! :( many many time. It's a tense and rather hard game, so if the devs can make a save option and not have to make you restart the WHOLE game again, then it'd be better. Still, I recommend this over FNAF any day.

....But seriously, add a save option. PLEASE!. Thank you Pewds, very cool

Great game.. bring back so many memories from 20ish years ago <3  
Looks really good!!! all the same voices <3 A must buy game 10/10. No support for battles. No support for side battles. Just the same thing from VX Ace you have to rebuy.  
Also less content than from the creator's site. RPG Maker MV devs are con artists.. This is a blast! With one in VR (cooking) and one at the PC (waiter), this is a great co-op game to play. It also really improves communication!!!  
The graphics aren't going to set the world on fire, but you know what? They're absolutely fine! I've always concentrated far more on the gameplay than the graphics, and the gameplay is excellent. It's fun, it's challenging, and it's an absolute blast to play!. This game has pleasing graphics and some satisfying building construction by some spooky slaves I meannn townspeople (that you can work to starvation).

Bear in mind that there is no room for creativity - everything is scripted. The game is also fairly short.

Really lovely little casual game that's gonna get you some steam cards.. This game haunts me.

After opening the game for the first time, I quickly realised that I was going to have a mediocre experience.  
So I immediately shut it down.

But when I closed my eyes to sleep that night, I kept seeing flashes of uncoloured food moving under my eyelids like some kind of seizure induction ceremony. I jumped out of bed, ran to my computer and reopened the game. My eyes widened in terror.

?????? ?????????? ?????????????????????? ?? ??????? ????? ???.

Tears started falling down my face in moist waterfalls. I hadn't cried that much since Chris Pratt had feelings in Guardians of the Galaxy II. And when Chris Pratt had feelings in Jurassic World.

I stayed up for 62 minutes and finished the game to completion.

(عَلَى رَجُلٍ). Fun puzzle game that makes you think. Would recommend, well worth the price.. I'm actually really pleasantly surprised by this game, although I have to say a positive review really isn't glowing one. The game exceeded my expectations but only because they were so incredibly low to being with.

Pros:

Licensing is really good  
3d Matches are stimulating - like REALLY good. The AI is streets ahead of rugby playing games like Rugby Challenge and Rugby 15

Cons:

Basically everything else  
Menus are shocking  
Joke ansers in press conferences are terrible.  
No explanations of so many things  
Did I mention Menus are terrible? Impossible to navigate game  
Scouting/Player search is a sham. I recommend staying with classic graphics/music and turning on voice acting. The voice acting is great and features the original cast of the third game, but the new graphics and music don't fit as well. They seem like loose adaptations done entirely to justify the special edition that would be cool on DeviantArt or something but don't work as well for gameplay, plus the original music and backgrounds are fantastic.
